## WRITING: ABOUT MEDIA

### 成 果

To most people, using distance-learning at home is simple and convenient. But this is a lack of interaction. Furthermore, if you have some questions about the subject, that can't be solved quickly. On the other hand, attending college or university is not perfect either. For example, if a student lives far from school, he must get up early every morning. He will be feeling down frequently. Additionally, Social contact for some people is a big problem. Studying is already making us tired not to speak of social contact.

As far as I am concerned, using distance-learning at home is better. Though at college I can socialize with classmates and teachers. But the most significant thing we go to college is to learn knowledge and skill. Except these, others are not so important.

Some people would think that social contact is beneficial for the future. Maybe that is right, but if your skill and knowledge is poor, any work or position won't stand. Despite learning at home you may not be as happy as at college, you can get more knowledge you have ever listened to and alone time.

No matter whether you support using distance-learning at home or study at college, learning knowledge is what we take care of the most. Time can be used for social contact or learning. You spend time on social contact, relatively, the time you can spend on studying is less. Therefore, we need to reasonably allocate time between studying, entertainment, social contact..... We can't get omelet without breaking eggs.

### 省 思

這是我來台加之後第一次寫作，也能算是我活到現在第一次用英文寫做，不管是對詞彙的應用，又或者是文法的精確度都有待加強，對於還是菜鳥的我真的像是突然豎立在我面前的牆，難以跨越。

這一篇的主題about media，要探討對於遠距教學和實體上課的想法和立場，看到這個題目我還覺得沒甚麼，但當我開始敲打鍵盤要將想法表達出來時，我發現寫到一半很常會突然辭窮，不知道該用什麼詞彙表達當時的感受，還有組件句子時，會不斷懷疑文法是否合理，這邊要不要加s、這邊介係詞是to還是for.....等等，讓我寫得非常難受。

神奇的是老師並沒有指責我寫的作業，反而認真的批改，文章中的優缺點一一被他點了出來，這讓我有點震驚，寫的難成那樣，竟然沒被罵？

經過了一學期的學習，我的寫作架構和辭彙量有大大的提升，詞窮的機會越來越少，並且能清楚表達自己的想法和感受，這是我完全沒想到的，不斷的練習和欣賞別人的文章終於得到到了一點成果。
